

Braishfield Primary School Progression of skills in DT for KS1 &KS2

	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Design: Developing, planning and communicating ideas	<ul style="list-style-type: none"> Explore moving vehicles through play Use construction kits and assembled vehicles with moving wheels Use basic tools e.g. scissors or hole punches with construction materials e.g. plastic, card Explore using different fabrics Cut and join fabrics with simple techniques Develop some cutting, joining and finishing skills with card 	<ul style="list-style-type: none"> Draw on their own experience to help generate ideas Suggest ideas and explain what they are going to do Identify a target group for what they intend to design and make Model their ideas in card and paper Develop their design ideas applying findings from their earlier research 	<ul style="list-style-type: none"> Generate ideas by drawing on their own and other people's experiences Develop their design ideas through discussion, observation, drawing and modelling Identify a purpose for what they intend to design and make Identify simple design criteria Make simple drawings and label parts 	<ul style="list-style-type: none"> Generate ideas for an item, considering its purpose and the user/s Identify a purpose and establish criteria for a successful product. Plan the order of their work before starting Explore, develop and communicate design proposals by modelling ideas Make drawings with labels when designing 	<ul style="list-style-type: none"> Generate ideas, considering the purposes for which they are designing Make labelled drawings from different views showing specific features Develop a clear idea of what has to be done, planning how to use materials, equipment and processes, and suggesting alternative methods of making, if the first attempts fail Evaluate products and identify criteria that can be used for their own designs 	<ul style="list-style-type: none"> Generate ideas through brainstorming and identify a purpose for their product Draw up a specification for their design Develop a clear idea of what has to be done, planning how to use materials, equipment and processes, and suggesting alternative methods of making if the first attempts fail Use results of investigations, information sources, including ICT when developing design ideas 	<ul style="list-style-type: none"> Communicate their ideas through detailed labelled drawings Develop a design specification Explore, develop and communicate aspects of their design proposals by modelling their ideas in a variety of ways Plan the order of their work, choosing appropriate materials, tools and techniques
Make: Working with tools, equipment, materials and components to make quality products (inc. food)	<ul style="list-style-type: none"> Experience of using construction kits to build walls, towers and frameworks Experience common fruit and vegetables, undertaking sensory activities, i.e. appearance, taste and smell Experience cutting soft fruit and vegetables using appropriate utensils Early experience of working with paper and card to make simple flaps and hinges Experience of simple cutting, shaping and joining skills using scissors, glue, paper fasteners and masking tape 	<ul style="list-style-type: none"> Make their design using appropriate techniques With help measure, mark out, cut and shape a range of materials Use tools <i>eg hammer, knives</i> safely Assemble, join and combine materials and components together using a variety of temporary methods e.g. glues or masking tape Cut, shape and join fabric to make a simple garment. Use basic sewing techniques Select and use appropriate fruit and vegetables, processes and tools Use basic food handling, hygienic practices and personal hygiene Follow safe procedures for food safety and hygiene Use simple finishing techniques to improve the appearance of their product 	<ul style="list-style-type: none"> Begin to select tools and materials; use vocab' to name and describe them Measure, cut and score with some accuracy Use hand tools safely and appropriately Assemble, join and combine materials in order to make a product Choose and use appropriate finishing techniques 	<ul style="list-style-type: none"> Select tools and techniques for making their product Think about their ideas as they make progress and be willing change things if this helps them improve their work Measure, mark out, cut, score and assemble components with more accuracy Work safely and accurately with a range of simple tools Sew using a range of different stitches, weave and knit Measure, tape or pin, cut and join fabric with some accuracy Demonstrate hygienic food preparation and storage Use finishing techniques strengthen and improve the appearance of their product using a range of equipment including ICT 	<ul style="list-style-type: none"> Select appropriate tools and techniques for making their product Measure, mark out, cut and shape a range of materials, using appropriate tools, equipment and techniques Use simple graphical communication techniques Join and combine materials and components accurately in temporary and permanent ways 	<ul style="list-style-type: none"> Select appropriate materials, tools and techniques Measure and mark out accurately Use skills in using different tools and equipment safely and accurately Pin, sew and stitch materials together create a product Weigh and measure Accurately (time, dry ingredients, liquids) Apply the rules for basic food hygiene and other safe practices <i>e.g. hazards relating to the use of ovens</i> <ul style="list-style-type: none"> Cut and join with accuracy to ensure a good-quality finish to the product 	<ul style="list-style-type: none"> Select appropriate tools, materials, components and techniques Assemble components make working models Make modifications as they go along Use tools safely and accurately Construct products using permanent joining techniques Achieve a quality product

Braishfield Primary School Progression of skills in DT for KS1 &KS2

<p>Evaluation: Evaluating products and processes</p>	<ul style="list-style-type: none"> Think about the user and purpose of products in everyday school and home life 	<ul style="list-style-type: none"> Evaluate their product by discussing how well it works in relation to the purpose Evaluate their products as they are developed, identifying strengths and possible changes they might make Evaluate their product by asking questions about what they have made and how they have gone about it 	<ul style="list-style-type: none"> Evaluate against their design criteria Evaluate their products as they are developed, identifying strengths and possible changes they might make Talk about their ideas, saying what they like and dislike about them 	<ul style="list-style-type: none"> Evaluate their product against original design criteria <i>e.g. how well it meets its intended purpose</i> Disassemble and evaluate familiar products 	<ul style="list-style-type: none"> Evaluate their work both during and at the end of the assignment Evaluate their products carrying out appropriate tests 	<ul style="list-style-type: none"> Evaluate a product against the original design specification Evaluate it personally and seek evaluation from others 	<ul style="list-style-type: none"> Evaluate their products, identifying strengths and areas for development, and carrying out appropriate tests Record their evaluations using drawings with labels Evaluate against their original criteria and suggest ways that their product could be improved
